

Table of Contents

1. XML Schema Basics.....	1
The Purpose of XML Schema.....	1
The Power of XML Schema.....	1
A First Look.....	2
A Simple XML Schema.....	3
Validating an XML Instance Document.....	4
2. Simple-Type Elements.....	7
Overview.....	7
Built-in Simple Types.....	8
19 Primitive Data Types.....	8
Built-in Derived Data Types.....	9
Defining a Simple-type Element.....	9
<i>Exercise 1: Building a Simple Schema.....</i>	<i>11</i>
User-derived Simple Types.....	13
Applying Facets.....	13
Controlling Length.....	14
Specifying Patterns.....	15
Working with Numbers.....	16
Enumerations.....	18
Whitespace-handling.....	19
<i>Exercise 2: Restricting Element Content.....</i>	<i>22</i>
Specifying Element Type Locally.....	25
Nonatomic Types.....	25
Lists.....	25
Unions.....	27
<i>Exercise 3: Adding Nonatomic Types.....</i>	<i>30</i>
Declaring Global Simple-Type Elements.....	33
Global vs. Local Simple-Type Elements.....	33
<i>Exercise 4: Converting Simple-Type Element Declarations from Local to Global.....</i>	<i>36</i>
Default Values.....	39
Fixed Values.....	40
Nil Values.....	42

Table of Contents

3. Complex-Type Elements.....45

- Overview.....45
- Content Models.....47
 - xs:sequence.....47
 - xs:all.....47
 - xs:choice.....47
- Complex Model Groups.....48
- Occurrence Constraints.....50
- Exercise 5: Adding ComplexType Elements.....53*
- Declaring Global Complex-Type Elements.....55
- Exercise 6: Converting Complex-Type Elements from Local to Global.....58*
- Mixed Content.....61
- Defining Complex Types Globally.....62

4. Attributes.....65

- Overview.....65
- Empty Elements.....65
- Adding Attributes to Elements with Complex Content.....66
- Adding Attributes to Elements with Simple Content.....67
- Restricting Attribute Values.....68
- Default and Fixed Values.....71
 - Default Values.....71
 - Fixed Values.....72
- Requiring Attributes.....73
- Exercise 7: Adding Attributes to Elements.....75*

5. Reusing Schema Components.....79

- Overview.....79
- Groups.....79
 - Element Groups.....82
 - Attribute Groups.....83
- Extending Complex Types.....85
 - Abstract Types.....87

6. XML Schema Keys.....91

- Uniqueness.....91
- Keys.....93

7. Annotating XML Schemas.....97

- Overview.....97
- Annotating a Schema.....97
 - Transforming an XML Schema for Documentation.....100
- Exercise 8: Annotating an XML Schema.....102*

8. Namespaces.....105

- Overview.....105
- Purpose of Namespaces.....105
- Target Namespaces.....106
- Default Namespaces.....108
- Locally Declared Elements and Attributes.....109
- Qualified Locals.....111
- The XMLSchema-instance Namespace.....113
- Using Multiple Namespaces.....114

9. Tying It All Together: XML Schema.....117

- Tying it all Together.....117
- Exercise 9: Tying It All Together.....117*
