Table of Contents

Module 1: Creating Enhanced Visualizations 7

The Importance of Shapes in Reporting 7

Why Use Shapes as a Reporting Medium? 8

Create Shapes Using the Rectangle 9

Rectangles 9

Layering 11

Containership 12

Demonstration: Layering and Containership 13

Control the Display of Report Items 13

CanGrow and CanShrink 14

ZIndex 15

Demonstration: Text Box Properties CanGrow and Padding 16

Creating Tiles in a Tablix 17

Width and Height 17

Images 18

Visibility 19

Demonstration: CanGrow, CanShrink, and ZIndex 19

Lab 1: Using Shapes in SSRS Reporting 20

Exercise 1: Creating Tiles in a Report 20

Exercise 2: Create Tiles in a Tablix with Text Boxes 22

Exercise 3: Creating Rectangle Tiles and Tablix Tiles in a Report 24

Module Review 29

Module 2: Visual Basic 30

The Visual Basic Programming Language 30

Visual Basic Language Elements 34

Worksheet 1: Visual Basic Statements 42

Worksheet 2: Understanding Visual Basic Statements 43

Creating Variables, Expressions, and Procedures 46

Worksheet 3: Creating Conditional Logic 52

Worksheet 4: Creating Visual Basic Procedures 55

Lab 2: Working with Visual Basic 59

Exercise 1: Adding Visual Basic Procedures to a Report 59

Exercise 2: Working with Value Types in a Report 62

Exercise 3: Working with Reference Types in a Report 63

Module Review 65
Module 3: Using Visual Basic in Reports 66
Visual Basic in SSRS Reports 66
Memory Allocation in Visual Basic code 68
Function Examples 70
Visual Basic Conversion Functions 71
Demonstration: Using Visual Basic in a Report 72
Calling Visual Basic code from a Report 73
Practice 1: Using Visual Basic in a Report 77
Practice 2: Using Visual Basic in a Report (End to End) 80
Using External Visual Basic code in Reports 82
Demonstration: Calling External Code from a Report 85
Lab 3: Using Visual Basic in SSRS Reporting 87
Exercise 1: Use Conditional Logic with Literals, Fields, and Report Items 87
Exercise 2: Create a Report using Visual Basic 90
Exercise 3: Update a Report to use External Code 94
Exercise 4: Troubleshoot Visual Basic Errors in a Report 95
Module Review 99
Glossary of Terms 100
Module 2, Worksheet 1 Solution: Visual Basic Statements 102
Module 2, Worksheet 2 Solution: Understanding Visual Basic Statements 103
Module 2, Worksheet 3 Solution: Creating Conditional Logic 104
Module 2, Worksheet 4 Solution: Creating Visual Basic Procedures 106
Module 3, Practice 1 Solution: Using Visual Basic in a Report 108
Module 3, Practice 2 Solution: Using Visual Basic in a Report (End to End) 109
